

Sprint 3 Report

Last Revised: 11/19
(11/6 - 11/19)

ChoreMates

Katherine Kosolapova - Product Owner
Victoria Ayala - Scrum Master
Maggie Heathcote - Developer
Annabel Truong - Developer
Nathan Nguyen - Developer
Ethan Lin - Developer

Actions to Stop Doing

- Finishing tasks on the final day
 - Try to have everything done before the weekend for cleanup and merging
- Beginning tasks late in the week (end of sprint week)

Actions to Start Doing

- Review the miro board at end of in person meeting to ensure everyone understands the smaller tasks each person plans to work on
 - To avoid two people accidentally plan to work on the same thing

Actions to Keep Doing

- Setting goals for what to complete by the end of the first week
- Merging all our work together at the end of the first week as well as the end of the second week
- Keeping each other updated with visual/verbal progress

Work Completed / Not Completed

- Completed:
 - Users can create, delete, and edit group chores
 - Users can designate assignments for group chores
 - Users can view their group chores on the home page
 - Users can collapse the chores for their groups on the home page for a more organized visual of all chores
 - The chores page only displays active chores (aka personal chores and group chores that are assigned to the user)
 - The chores page has a to-do tab and a completed tab to visually organize the user's chores
 - Users can create and join groups on the group page
 - Group members can leave groups
 - Users can view the members of their group
 - The creator of the group can invite users to the group as well as toggle permissions for that user
 - The creator of the group can disband the group
 - Group chore assignment rotates at the end of each week for group members
 - Users can customize the color for groups, which then affects the color of the group chores for better visual organization
- Not Completed:
 - Only admins can create, delete, and edit group chores (to be done in sprint 4)
 - Have rotation as a toggleable setting for group chores
 - Testing through jest

Work Completion Rate

- 90% of sprint tasks got 100% completed

Burn-Up Chart
