

Sprint 1 Report

Last Revised: 10/23
(10/8 - 10/22)

ChoreMates

Katherine Kosolapova - Product Owner
Maggie Heathcote - Scrum Master
Nathan Nguyen - Developer
Annabel Truong - Developer
Victoria Ayala - Developer
Ethan Lin - Developer

Actions to Stop Doing

- Don't procrastinate
- Don't do tasks that are assigned to someone else— stick to your tasks for the sprint and if completed early, ask if people need help

Actions to Start Doing

- Get started on research and sprint tasks asap
- Merge fully working progress earlier
- Make sure code pushed is working code
- Code according to company standards with React Native
- More detailed stand ups so we can share progress and help where someone might be stuck
- Send screen recordings of progress as you work / at stand-up meeting so other team members have an idea of what to expect from your part
- Keeping track of hours

Actions to Keep Doing

- Keep communicating problems! share the load with the rest of the team, since someone might have a similar problem or might know the solution
- Continue having standup meetings - keeps everyone involved with other parts of the project
- Comment your code!!!

Work Completed / Not Completed

- Completed:
 - Add option to view details of a chore
 - Allow user to add and delete description or sublists within a chore (aka tasks)
 - User authentication: sign in/register/logging out
 - Checkbox to indicate task completion on ui
- Not Completed:
 - Checkbox connected to database
 - Form to add a chore
 - Button to delete a chore

Work Completion Rate

- 80% of sprint tasks got 100% completed

Burn-Up Chart
